- adult dogs
- senior dogs
- puppies
- special needs dogs/puppies (require medication, etc)

Are you willing to have a representative from Northern Animal Rescue Alliance come to your home to do a home visit? _____

Is there a certain animal in our care you are interested in fostering? _____

Thank you for your interest in providing foster care for an animal in need. The purpose of a foster home is to provide temporary care for homeless animals in a loving environment until a suitable permanent home is found. Foster care is a very tough job but it is gratifying experience as well. Foster homes are the most critical part of our rescue organization. Without dedicated foster-homes we would not be able to take in animals that are in desperate need of our help.

Responsibilities of the Foster Parent:

1. Provide a safe, loving environment for the animal.
2. Notify Northern Animal Rescue of any concerns about health or behavior immediately.
3. Observe how the animal acts in different situations, and with different people and animals.

4. Do you best to provide a wide range of socialization for the animal.

The foster family will always be given first chance to adopt the animal. Though sometimes it is hard to let go of your foster pet, we all know that there is another one that will be just as needy, if not more, just around the corner. When you are able to make a successful placement and see the animal happy and healthy in their new home the heart ache is all worth it.

I, the undersigned, attest, to the best of my knowledge, the above information is accurate and complete at the time of the signing, and I understand that falsely provided information can mean that my application will be terminated.
